Public participation was also included and an online survey by the Park and Rec Department which included 283 completed surveys from 2016-2017 and another online survey by Ayres Associates which included completed 163 surveys. All of these meetings were for the purpose of soliciting input on recommendations to be included in the updated plan. The plan is used by the Village Parks Committee, Marshall Village Board and Staff as a guide for making future resource protections and park development decisions over the next five years.

This plan is not a land use plan or created for the purpose of guiding future zoning decisions.
